Technology for Learning

Grade 8 students use their devices this week to complete a practice Science quiz using an app called **Kahoot**. These interactive approaches tend to boost engagement due to the added fun factor and are becoming more common in today's classrooms. Thanks to Mr. Howe and Mr. Golder for sharing these approaches.

Global Citizenship and Social Responsibility

Members of Mr. Tran's class make a presentation on food waste at this week's assembly. Canadian families throw out an average of \$1700 worth of food annually according to the research undertaken in Division 13.
