

ARBUTUS GLOBAL MIDDLE SCHOOL INVITES YOU TO...

PARENT MATH NIGHT!

Wednesday, November 14, 2018

6:30 - 8:00 pm

Our NEW curriculum (September 2016) is significantly different from the past curricula with respect to HOW we teach math. The current curriculum is based on a 'know-do-understand' model and is intended to help students understand WHY mathematical processes work, rather than simply focusing on HOW to follow the processes. This change is new to almost all teachers and parents, so re-education is necessary for most of us.

Learn about how and why this curriculum change has occurred, as well as what you can do at home to support your child.

Please R.S.V.P to:

<https://goo.gl/forms/33AmGDiuCxEjRaL82>

LEARN ABOUT:

- **Ways to support your child in building number sense and a growth mindset**
- **Why it's so important to think visually in math and how we achieve this**
- **The mathematical skills our students need**
